The circles are buttons for each lamp to switch it on or off individually

Dark moon means the light is snoozed for 30 minutes

The slider dims the light

I want to choose the runtime of the fans (or pump) per hour with the slider

When I hit this reset button I want to change my wifi credentials

This is a small user guide page where I want to be able to input pictures (green) and text (blue), please use place holders for now
